Power Source (208 to 250V) appliance rating 120V-15A

SHIPPING WEIGHT

65 lbs

MICROWAVE OVEN NOTES

Model 1895 is designed as a countertop unit. If built into cabinets, allow a minimum total of 30 square inches of ventilation space around the face of the unit – top, sides and bottom. This can be accomplished with open space, louvers, slots, etc.

ELECTRICAL CONNECTIONS

Electrical receptacles should be located in the center of the opening.
