<b>SHIPPING WEIGHT</b>		
		65 lbs
<b>POWER</b>		
	Power Source (208 to 250V) appliance rating	120v, 60 Hz.
	Power Consumption	1460 W
<b>MICROWAVE OVEN NOTES</b>		
Model 1953 is designed as a countertop unit. If built into cabinets, allow a minimum total of 30 square inches of ventilation space around the face of the unit – top, sides and bottom. This can be accomplished with open space, louvers, slots, etc.		
<b>ELECTRICAL CONNECTIONS</b>		
Electrical receptacles should be located in the center of the opening.
